No matter how clean our whole food diet might be, it's impossible to avoid pollutants. Liver health and normal liver regeneration are essential. Your liver is constantly working to filter out harmful toxins and manufacture nutrients for your survival. Clinically studied **LIVERCARE®** supports liver cells and tissue, and the delicate balance of the specialized enzymes you need to help your liver perform more than 500 different functions, including cleanse & detox.* Your liver works hard, support it every day with **LIVERCARE®**.*

HAPPINESS THROUGH WELLNESS

Crafting traditional medicines based on Ayurveda, a 5,000 year old science that believes the journey back to wholeness begins with nurturing the capacity for joy.

Trusting the gifts of nature and the irreplaceable relationship between the plant and its native soil for consistent healing properties.

Contributing to the wellness of the earth by teaching our family of farmers to grow native plants sustainably on their land and reduce the demand on the local environment.

Building communities by advocating women in farming, protecting fair prices, providing maternal health, sponsoring clinical services and offering school wellness programs.

Believing that if wellness is the path to happiness, we must contribute to the wellness of all things. Wellness of people, wellness of the environment, wellness of our communities.
